DOMINO
GARAGE DOOR KEYPAD
Model GD-1

DESCRIPTION

The **DOMINO** *GARAGE DOOR KEYPAD* is a simple and convenient way to open and close garage doors. Consisting of an outside mounted keypad and inside control box, the **DOMINO** *GARAGE DOOR KEYPAD* features personalized code setting, making the system as easy to program as it is to install.

FEATURES

BENEFITS

- **Virtually Universal Use**
  Popular with older style openers.
- **Easy Programming**
  Keypad is quickly programmed in three simple steps.
- **Code Security**
  Keypad shuts off for one minute after five wrong entries have been pressed.
- **Protective Cover**
  Flip-up cover design protects the unit against the elements.
- **Personalized User Code**
  A 1 through 6 digit code may be chosen, over 1,000,000 possibilities.
- **Back Lighting**
  Lighted keypad for easy nighttime operation. Additional indicator light provides verification as keys are pressed.
- **Low Power Warning / Battery Saver**
  Lights dim to indicate batteries should be replaced soon. Special sleep circuitry conserves battery life.
- **Instant Stop**
  After code is entered and garage door opener is activated, the "enter" key may be pressed again to stop or reverse the door, without re-entering the code. The "enter" key remains active for 20 seconds.
- **Additional Push Button**
  Conveniently located on control box.
